

Course Name: Nuclear and Radiation Chemistry

Paper Number: 4104

Section: B

Course Instructor: Prof. Rajeev Gupta

Note to the Students: M.Sc. students are advised to read the content that has been collected and collated from various books; e-resources and institutes/universities websites for their reading and understanding. The students are further encouraged to prepare their own notes from these study materials. Such content has been/will be discussed through online classes.

Contact: Students are encouraged to contact Prof. Rajeev Gupta with their specific content-related queries and questions through the following email address: contact.professor.rajeev.gupta@gmail.com

Uploaded Teaching Materials:

S. No.	Topic's Name	Number of Classes
1	Nuclear Reactors	3
2	Radiolysis of Water	2
3	Interaction of Radiation with matter	2
4	Hot Atom Chemistry	2
5	Detectors	2
